

Ecoflector

Access UBS software or any Window Application from anywhere, any device via internet browser

What is ecoflector in a nutshell?

Ecoflector is innovative, secure, and easy to use software, which allows effective sharing and remote execution of chosen applications through local and wide area networks.

Why choose ecoflector?

Low Costs - Applications executed remotely over network or internet.

Low Throughput - Works over LAN, Internet, as well as a dedicated connection.

Server Execution - Application is executed on the server, while the remote user uses its browser.

Total Control - The application server administrator decides which program(s) to share.

Security - Encrypted transmission, remote execution-only selected applications.

Easy to use - Easy to implement. Ready to work on-line in 30 minutes.

Most popular systems - Windows, Linux, Android, and HTML5 browsers

Application Sharing - Any 32/64-bit Windows application ie UBS software, Fingertec TCMS V3.

System requirements

Application server

Processor(s):

Recommended multi-processor or multi-core server

System:

Windows Server
2016/2012/2008R2/2008/2003

Windows 10/8.1/8/7/Vista/XP (no support for Home edition)

RAM

depending on the application, minimum 16MB per session

Graphics mode

32/24/16-bit color

Terminals (client workstations)

System:

Windows

2016/10/2012/8.1/8/2008R2/2008/7/Vista/2003/XP or Linux 32/64-bit (incl. Ubuntu), GTK 2.12+, X11R6+ (for example Ubuntu 7.10, Fedora 10, Debian 5.0, CentOS 6.0, OpenSUSE 10.3, SuSE 11.0, Linux Mint 4.0 or newer) platforms based on ARM architectures (e.g. Raspberry Pi)

MAC OSX

Android version 1.5 or newer

Web browser with HTML5
